FSD-480L

## Power Consumption

6700 W

## Voltage

380V/50 Hz / 3 phase

## Extraction (30°C, 80% RH)

480 Liters / day

## Humidity Display

Available

## Running Temperature

5 - 38°C

## Compressor

Panasonic / Daikin / Mitsubishi

## Protection

Delayed startup for protection

## Refrigerant

R410a

## Filter

G4 Efficiency

## Noise

</= 65 db

## Dimension (W x D x H) mm

1195 x 500 x 1745

## Drainage point

Provided

## Air Volume

5600 CMH

## Body Frame

Powder coated Metal

## Wheels

Provided

## Waterproof Protection

IPX21
